RUSSIAN SQUADRON SAILING NORTHWARD

Reported To Be 70 Miles North
Of Kamranh Bay.

DESTINATION IS YET UNKNOWN

However, It Is Generally Believed
Rojestvensky Is Heading for Vladivostok by Way of the Pacific—British Vessel Sees Warships.

Tokio, April 28.—5 p. m.—The Russian second Pacific squadron was sighted today off Cape Varella, 70 miles north of Kamranh bay.

Destination Is Unknown.

Kamranh Bay, Via Saigon, Cochinchina, April 29.—The Russian squadron with its transports left its last stopping place Wednesday evening for an unknown destination. The warships were provisioned for six months and it is thought here that they were bound for Vladivostok by way of the Pacific.

Four German colliers arrived at Kamranh Bay too late to proceed with the squadron, but they subsequently sailed in the same direction in efforts to catch up with it. Vice Admiral Nebogatoff's division was expected to arrive yesterday in Indo China waters where, it is believed, the admiral will receive instructions regarding the place where he is to effect a junction with Admiral Rojestvensky whose squadron besides 25 warships includes a repairing ship and a watertank ship.

British Steamer Sees Warships.

Island of Penang, Straits Settlement, April 29.—The British steamer Catherine Apcar which arrived here today from Calcutta, reports having passed two detachments of eight and seven warships respectively last night 60 miles south of Penang. They were heading for Singapore.

RUSSIA CELEBRATES EASTER.

All Business, Both Public and Private, Have Ceased.

St. Petersburg, April 29.—Three days' hard fasting preceding Easter accompanied by solemn services commemorative of Christ's passion began today. Business of every description ceased and all the government departments were closed. The alarming reports circulated during the last few days apparently had little effect on the size of the crowds who thronged the churches, where the tragedy of Calvary was vividly enacted.

The day was also marked by the observance of the traditional ceremonies of freeing birds, lighting bonfires and placing holy bread in bins, but the bright sunshine did not fail to make a deep impression on the superstitious in the midst of the gloomy forboding of evil, being an augury of drought and crop failure which in Russia is synonymous with famine and disaster. The diplomatic corps, including Ambassador Meyer attended the services at St. Isaac's cathedral. Every member of the Orthodox church took communion today, the emperor and the imperial family attending the services and taking the sacrament at the chapel of the Alexandra palace at Tsarskoe Selo.

Opposes Railroad Rate Bill.

Boston, April 29.—Congressman Samuel W. McCall in an address before the Beacon society here has strongly opposed the adoption by congress of a railroad rate bill, the passage of which he declared would be a violation of certain great and essential principles of government and likely to be followed by far-reaching and disastrous consequences.

Quick Trial for Safe Blowers.

Lawrenceville, Ga., April 29.—A petition is being circulated in this county asking Judge R. E. Russell to call an extra session of the superior court to try the men who are in jail here charged with safe blowing at Carl, Ga. Judge Russell has promised to hold this court in May, provided 25 citizens sign the petition.

MRS. SMITH GOES ON STAND.

Prosecution Calls Nan Patterson's Sister as a Witness.

New York, April 29.—The story told by Mrs. J. Morgan Smith, on the witness stand yesterday and the prospect of her cross-examination by counsel for the defense today served to intensify interest in the case of Nan Patterson.

The appearance of Mrs. Smith as a witness for the prosecution came in the nature of a surprise to the defense. Mr. Levy professed to be very well satisfied with the move, however, and said that cross-examination of the witness would afford an opportunity to place before the jury evidence which could not be produced in any other way. He also believes that the direct testimony of Mrs. Smith has only received to strengthen the case of the prisoner, as supports in many important details the testimony given by Miss Patterson herself at the last trial a portion of which was read to the jury yesterday.

The direct examination of Mrs. Smith which was not completed yesterday was resumed today. Mrs. Smith testified yesterday that Miss Patterson had expected Caesar Young to get a divorce from his wife, and marry her. She herself believed that Young intended eventually to marry her sister until last May, when Leslie Coggins told her that Young did not intend to carry out the agreement. Miss Patterson became greatly excited when Coggins' statement was repeated to her, Mrs. Smith said.

DR. OSLER LEAVES COLLEGE.

He Goes to Fill a Chair in Oxford University, England.

Baltimore, Md., April 29.—In his farewell address to the medical profession of Maryland, before leaving for his post as regius professor in the University of Oxford, Dr. William Osler urged the fusion of medical colleges in this and other cities of the country.

Medicine gives more hope for humanity than anything, he said, and combination and reciprocity are the greatest needs. Reciprocity between the state boards should be extended, he believed, so that a director's activity shall not be limited in moving from state to state.

It is time, he continued, that the homeopathic brethren were coming in to the fold. A difference in drugs should no longer separate men with the same hope. The original quarrel is ours, but the homeopathies should not allow themselves to be separated by a shibboleth that is inconsistent with their practice today.

The most dangerous foe to medical science is apathy. Thirty-five per cent of deaths in a community are due to apathy which goes to counterbalance the advance of the medicine in the last century.

Sheriff Is Asked to Resign.

Hempstead, Tex., April 29.—At a meeting held here resolutions have been adopted asking Sheriff Lipscomb to resign, that a ranger might be appointed sheriff to execute the law. The sheriff answered that it was a move of his enemies, that he would not resign and that the laws were being duly enforced. He disclaims any reason for believing that he could have prevented the recent killing of the four men had he been here.

Knights of Columbus to Meet.

Atlanta, April 29.—The state convention of the Knights of Columbus will be held in Atlanta next Tuesday May 2, and prominent knights from all over the state are expected to be in attendance. Big delegations from Savannah, Macon and Augusta will be here and members from other parts of the state are also expected. Between 50 and 100 delegates will be in attendance.

Royal Arch Masons Adjourn.

Macon, Ga., April 29.—The delegates to the grand chapter of Royal Arch Masons, completed its work and adjourned. The principal duty disposed of was the installation of the newly elected officers. The other work of the session was principally routine, and all business was disposed of somewhat earlier than had been expected. The delegates left this afternoon for their homes.

CHICAGO IN THROES OF ANOTHER STRIKE

Rumored That United States
Soldiers May Take a Hand.

A TEAMSTER IS BADLY BEATEN

He Was Unconscious When Rescued
by Police—The Ranks of the Strikers Have Been Largely Augmented in Last Few Days.

Chicago, April 29.—Soldiers seen on the streets of the business districts today gave rise to the reports that the troops from Ft. Sheridan had already been ordered to Chicago to suppress rioting in connection with the threatened wholesale sympathetic strikes growing out of the troubles of the garment workers and teamsters. Rumor had it that the "regulars" were quartered in the new postoffice, but this report was not confirmed.

From the appearance of the soldiers it was inferred that they had been in the city but a few hours. None of them were in possession of rifles or other arms. The uniforms, though, were spotlessly clean, and it was assumed that they had left the fort late last night or early this morning.

In the corridors of the Great Northern hotel the story went the rounds that lights were seen burning on the upper floors of the new postoffice at an early hour. Guests in the hotel asserted that several companies of troops were in the structure. Later it was said the soldiers had come to Chicago on social affairs.

Scenes of violence in connection with the strike began promptly today, the first victim being a negro teamster seen to enter the Monroe street barns of A. M. Forbes Cartridge company, whose teamsters joined the ranks of the strikers yesterday. He was later seen to leave the stables. Several pickets gave the word he had applied for a position as teamster in the stables. Thereupon the negro was followed by strike sympathizers. At Des Plaines street he was overtaken by his pursuers. The fugitive attempted to defend himself from the mob which had quickly gathered, but he was kicked and beaten into insensibility.

The arrival of a squad of police put an end to the disturbance. The injured man was taken to a hospital where he was found to be severely cut and bruised about the head and body.

The greatest number of Union pickets were stationed today about the stables of the Employers' Teaming company in Eighteenth street, near State street, where a number of teamsters are housed. Police were sent to protect the nonunion men as it was feared that the mob would raise a disturbance in the vicinity of the stables.

Fifty negroes from the south, who are to take the place of strikers arrived in a box car on the Chicago, Burlington and Quincy railroad today. They were placed in coal wagons belonging to the employing teamsters, and taken to the barns of J. V. Farwell company. Occasional bottles and other missiles were thrown from the windows at the newcomers but the negroes proved good dodgers.

Peonage Case Is Dismissed.

Jacksonville, Fla., April 29.—Judge Locke, of the federal court, has issued an order sustaining the demurrer to the indictment against John W. Bennett and Richard Bennett, of Bradford county, who were indicted on the charge of holding Maggie Williams in peonage on July 1, 1902. All parties are white and the Bennetts are prominent citizens. Judge Locke's order virtually dismisses the case. This is the only case of peonage ever alleged in Florida.

Lincoln's Relative Found Dead.

New York, April 29.—Miss Francis Amelia Lincoln, 75 years of age, a relative of President Lincoln, has been found dead at her home in New Rochelle. She had been ill for some time. Miss Lincoln was frequently a guest at the White House during the Lincoln administration, and was present at the funeral of the president.

YACHT WAS IN NO DANGER.

Reasons Why Captain of Fruit Vessel Did Not Aid Ship.

New York, April 29.—Because he considered the yacht in no immediate danger, had a perishable cargo which would make any delay of his own dangerous, and had no towing gear, are sluce the incident Captain Hotteville of the fruit steamer S. Oteri, for his failure to go to the assistance of President Roosevelt's yacht Sylph when she was lying disabled south of Bodie's island.

The S. Oteri arrived here from Banes, Cuba, and for the first time since the incident Captain Hotteville had an opportunity to give his version of the affair. He said:

"We were steaming along under full headway when I sighted flare lights on a vessel ahead. This vessel was about 8 miles off the land and 16 miles south of Bodie's island. The night was clear and the weather good. The signal was given to stop the engine, but the wire broke and before I could communicate with the engine room we were out of range of hearing. As soon as the wire broke I made ready to hail the distressed craft. A hail came:

"Will you tow us out?"

"I answered: 'I cannot; drop your anchors; you are in 14 fathoms of water; I'll report you at Cape Henry.'"

"I reported the ship's distress to the pilot and told them to send a tug. We had perishable cargo on board, the yacht was in no danger, and as I had no towing gear, I did the best thing I could under the circumstances."

G. A. R. WILL ENTERTAIN VETS.

Fertilizer Tags Thrown Away.

Atlanta, April 29.—That the fertilizer companies have bought more tags than they have used this year, and that numbers of fertilizer tags have been thrown away, and five or six tags placed on each sack is a very evident fact now, and the public can no longer be fooled by the statements that the heavy increase in the sale of tags indicates a heavy increase in the use of fertilizers. President Harvie Jordan of the Southern Cotton association calls attention to the methods which have been pursued for advertising purposes.

Six people were rescued from the debris, all badly injured and three of them will probably die. Those probably fatally injured are Hall Ross, Frank Bates and Ida Stafford.

The explosion was the result of the ignition of escaping natural gas.

Practically every plate glass window within a block was broken. Both the adjoining buildings were completely wrecked.

DOUBLE TRAGEDY IN ARKANSAS.

Man Kills His Wife Then Blows Out His Own Brains.

Hot Springs, Ark., April 29.—A probable murder followed by suicide occurred in a rooming house here, when W. H. Wilder, of Kansas City, Mo., is alleged to have shot his wife, the ball entering near her left eye and penetrating the brain.

After the shooting Wilder went to get a physician, who, upon examination, told him the woman's wound was fatal and accused him of shooting her, as her clothing was torn and there were other evidences of a struggle.

KEY WEST RAILWAY BILL PASSED SENATE

Senator Hudson Supports the Bill
as Amended.

MANY NEW BILLS PRESENTED

Senator Adams' Minority Report on Appropriations Adopted—Senator Brown Accused of Using Free Pass on East Coast Railway, Etc.

Tallahassee, April 27.—The Senate was occupied with the general appropriation bill at its opening session yesterday. The committee on appropriations presented its bill through Chairman Adams, accompanied by a minority report upon the subject of the fund from which money should be borrowed with which to pay the pension rolls. There is a deficit of \$140,000 in the pension fund. The majority report leaves it to the State government to pay this deficit from the general revenue fund. Senator Adams contended that there was no money in the general fund to meet this shortage, and he, therefore, submitted a minority report requiring that the pension fund deficit be met with money in the fund from the hire of State convicts.

Senator Adams' minority report brought out considerable discussion, Senator Orill contending that the minority report proposed shifting the burden of an honorable pension roll from the State to the counties.

After debate years and nays were called, and the minority report was adopted by a vote of 17 to 13.

Yeas—Messrs. Adams, Alford, Bailey, Brown, Canova, Clark, Crane, Crews, Davis, Faulkner, Harris, Massey, Neel, Newland, Scott, Wadsworth and Zim—17.

Nays—Mr. President, Blount, Carter, Orill, Gillen, Hudson, Humphries, Lee, McCreary, Raney, Sams, West and Wilson—13.

The Key West railway bill, as amended, with all the words after "Key West" in section 5 cut out, was taken up.

Senator Hudson said he thought the bill in its amended form was not objectionable, but asked another day to consider it. Motion lost and bill was placed on its third reading and passed.

On roll-call the vote was:
Yeas—Messrs. Adams, Alford, Brown, Canova, Carter, Crane, Crews, Orill, Faulkner, Gillen, Harris, Hudson, Humphries, Lee, McCreary, Massey, Neel, Newland, Raney, Sams, Scott, Wadsworth, West, Wilson and Zim—26.

Nays—The president and Senator Blount; paired, Clark and Jackson against. Absent, Bailey and Davis.

On motion of Senator Harris the bill was immediately certified to the House, where it was referred to the committee on railroads, after the passage of a motion by Mr. Beckman, ordering 200 copies printed. The bill will be referred back to the House tomorrow.

A sensation was caused when Senator Bailey of Jefferson county introduced a resolution providing for the appointment of a committee of five Senators to investigate and report upon the facts in the case of the charge that Senator C. M. Brown has accepted a free pass from the Florida East Coast Railway. When the president of the Senate put the question on a viva voce vote some Senators voted no, but upon a rising vote, it was ordered unanimously that the matter be investigated.

Senator Brown made a lengthy explanation, in which he sought to excuse himself on the ground that he is employed as an emigration agent by the Florida East Coast Railway.

The following new bills were introduced:

Senator Massey—To amend the law relating to the carrying of firearms.

Senator Neel—Providing for the division of Holmes and the formation of Bloxham county.

Senator Crane—Relating to the crossing of railway tracks.

Senator Newland—To prohibit certain games and sports on Sundays.

Senator Bailey—Authorizing the State Board of Pensions to enroll the name of Joseph Gilmore on the pension roll.

Committee on Appropriations—Appropriation bill for the six months of 1905, the year 1906, and the first six months of 1907.

On motion of Senator Adams 300 copies of the bill were ordered printed.

Senator Gillen was appointed on the part of the Senate on the joint committee to visit and report upon the

Had to Ward Off Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these tablets to be just what you need. For sale by all druggists.

Committed for Larceny.

Deputy Sheriff J. Lee Stokes of Micanopy arrived in the city Thursday with Edward Williams, a youthful negro who was arraigned before Justice Smith at Micanopy upon a charge of larceny, and sentenced to three months in the county "gang." It is said that Williams, whom it is claimed is in a bad way with a loathsome disease, has been obnoxious to the people of Micanopy for some time, but there is a satisfaction that he will not trouble them for the period of the next three months anyway.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in hot water as hot as can be drunk. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by all druggists.

OUR NEW CHARTER BILL PASSED SENATE

Joint Committee of Legislature to
Visit East Florida Seminary.

PENSION BILL BECOMES LAW

Will Seriously Affect the Fine and Forfeiture Fund—Alachua Among the Counties to Suffer—Senator McCreary's School Bill Passed.

Special to The Daily Sun.

Tallahassee, April 27.—Senator Harris of Monroe and Representatives Wilson of Jackson and Dyal of Nassau have been appointed a committee to visit East Florida Seminary, and the committee will probably leave for Gainesville tomorrow.

The Senate appropriations bill, appropriating \$140,000 immediately from the fund arising from the hire of State convicts to pay pensions, passed the Senate today and was immediately certified to in the House. It is claimed the bill will seriously affect the fine and forfeiture fund and financial arrangements of many counties, including Alachua.

The Gainesville charter bill was put upon its third reading and was passed by the Senate this afternoon; also the McCreary bill regulating the attendance of non-residents in special tax school districts.

Why Suffer From Rheumatism?

Why suffer with rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

COURT HOUSE PAVEMENT.

Bricklayers Began Work Thursday, and Will Push Work Through.

Work was begun Thursday of laying brick on the pavement around the court house square, the work being done under the supervision of J. Dudley Williams and Mr. Fisher.

The sidewalk or pavement will prove of great benefit to those who are accustomed to passing that way. It will prove a great convenience to the public generally, and will tend to enhance the value of the county property considerably.

County Commissioner Pedrick of this district has the work in charge, and he has been devoting a great deal of time to the same within the past few days. All material has been delivered, the grades have been properly made, and altogether the work is ready to begin. Mr. Pedrick expects the same to be completed within the next two or three weeks, when Gainesville can boast of the best and most durable pavements in the country.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists.

RAILROAD VALUATIONS IN ALACHUA

They Reach Nearly a Million and a Half Dollars.

PAY TAXES OF \$22,639.44

Of This a Large Amount Goes Into County General Fund and Sub-School Districts—The Railroads Pay Heavily for Business Privileges Here.

Casual thought would not begin to figure up the correct valuations of the railroad possessions, or railroad property, in Alachua county. These valuations reach figures enormous, and are hard to conceive unless one becomes familiar with same.

The railroads operating in Alachua county, as shown by the tax books of County Collector Dickinson, own an aggregate valuation, including main and side tracks, rolling stock, equipment, depots, shops, etc., of \$1,390,301. Upon this valuation the railroads pay a net tax of \$22,639.44 per annum, which is divided as follows:

County, \$14,070.80; State, \$5,623.33; sub-school (county), \$2,940.31.

This represents vast interests within the county, and when those adverse to the building and maintenance of hard roads begin making objection upon the grounds that the taxes might be increased, should stop long enough to consider the great "burden" upon the railroads, which, instead of receiving a benefit directly, only receive the indirect benefit, but are compelled to pay their proportion, the same as the grower who hauls his product to market, or the citizen who uses the highway for other purposes to his own benefit and comfort.

The railroads are paying their share of the taxes of Alachua county, as is shown from the above statement, and no person has any just cause to object to their existence and their volume of business.

SSS FOR THE BLOOD

"S. S. S. for the blood" has grown to be a household saying. When the blood is out of order, or needs treatment from any cause, this great remedy is the first thought of and used by thousands of people all over the country, because it is superior to all other blood purifiers. It is a purely vegetable remedy, and while it penetrates the circulation and forces out all poison and morbid matter, it also builds up the entire system by its fine tonic effect. During the winter months the natural avenues of bodily waste have become dull and weak and failed to perform their full duty, the blood has been sluggish and an extra amount of poisons and waste matters have accumulated in the system and been absorbed by it. With the coming of Spring and warm weather the blood is aroused and stirred to quicker action and in its effort to throw off these acids and poisons the skin suffers. Boils, pimples, blotches, rashes and eruptions break out and continue until the blood is cleansed and made pure. S. S. S. is the ideal remedy for this condition; it clears the blood of all impurities, makes it rich and strong and these skin troubles pass away. Rheumatism, Catarrh, Chronic Sores and Ulcers, Scrofula, Contagious Blood Poison and all other diseases of the blood are cured by S. S. S. Book on the blood and any advice desired, free of charge.

I was suffering from impure blood and a general run-down condition of the system. I had no appetite, was losing flesh, and an all-gone tired feeling that made me miserable. I began the use of S. S. S. and my blood was restored to its normal, healthy condition. My appetite returned, I increased in weight, that "tired feeling" left and I was again myself.

The "Jim Crow" bill will become effective July 1st.

Senator Sams of Volusia county has introduced a bill which requires admission to the bar as a qualification of county judges.

It is stated that Biglow, the defaulting Milwaukee bank president, has filed a petition in voluntary bankruptcy. Why this undue haste?

It is reported that President Roosevelt killed two of the bears shot by his party, but the report is not verified, although it may be barely possible.

Pointers to the Legislature as to the course to pursue in regard to the bills before that body, should be addressed to the secretary. All suggestions thankfully received.

The Sunday school workers of Gainesville will try to get up more enthusiasm along that line. An hour at Sunday school is a benefit to boys of all ages. And girls, too.

A colored man who was hit on the head with a sand lime brick pronounced the quality first-class, and thought them possessed of as much resistance as those made of clay.

For the sake of a newspaper controversy The Punta Gorda Herald says "the shade of an oak tree is the lair of that ferocious monster, the typhoid fever microbe." That settles the question for all time.

The people of Alachua county are not really suffering for rain, but a few gentle showers would not come amiss. In many places not far from this city, however, there have been refreshing rains during the week just passed.

The peach crop in this vicinity promises to be abundant. One grower said he had picked many bushels of the young fruit from his trees to relieve the branches that contained more fruit than they could hold up with safety.

Dr. D. K. Pearsons of Chicago gives \$180,000 to Southern colleges on the condition that they raise \$3 for every \$1 he donates. And the money must be raised within a year. Now, if Mr. Carnegie would only plunk down the \$400,000.

When the First National Bank at Milwaukee, Wis., had been robbed of its entire capital, \$1,800,000, by Frank Biglow, the president, there commenced a run on that institution. To restore confidence Mayor Rose was escorted to the bank by two policemen and deposited \$500,000 in currency and gold. Business assumed its normal condition and the bank was saved.

The Florida Legislature is evidently determined on business, and of the many bills introduced it is noticeable that, with but few exceptions, all are for the best interests of the State. Of course there are people in the commonwealth who have acquired a habit of kicking at men and measures, and because they "don't like that man nobow," will find fault. In matters pertaining to education, excellent judgment is being used, and in this instance the present Legislature deserves the esteem of the entire State.

THE TWO UNIFORMITY BILLS.
 In speaking of the two measures before the Legislature in regard to uniform text books in the State schools, The Lake City Index says:

While The Index is not in favor of either of the two bills providing for a uniform system of text books for the schools of this State, on account of the great expense to parents that a change would cause, we declare emphatically in favor of the McCreary bill as between the two, if either is to become a law, for the following reasons:

McCreary Bill—Senate Bill No. 5.

1. The sub-commission is Democratic in its formation and conforms to the primary law, which is so heartily approved by the great majority of our people. The frequent allowance of a change of school superintendents (who are really the uniform text book commission) prevents any danger of a scandal and no likelihood of an attempt at bribery. There are too many men to be bought.

2. It provides for uniformity in ALL grades—Primary, Intermediate, Grammar School and High School.

3. Recognizing the fact as pointed out by The Index last week that contracts had recently been made by the county school boards for books, it provides a GRADUAL conformity to the system rather than a radical and abrupt change.

4. Provision is made for the punishment of contractors attempting to influence elections in this State, thereby relieving the people of such rumors as "that much money was used in our last campaign to secure the election of Mr. So-and-So," etc.

5. The argument being used that the books are already selected before the county boards meet is a MISTAKE. One-half of the present school officers have been installed since the present contracts were made in the different counties. It is a fact, well known to everyone of any ordinary intelligence, that the county school boards never select books until after advice from and consultation with the principal teachers of their county.

So much for the McCreary bill, and we believe we have discussed and "analyzed" it fairly.

Now a few words as to Senate Bill No. 112.

1. It provides for a "SMALL" commission of five. Three of these constitute a majority. They will have to pass on contracts aggregating about \$50,000 annually; it is perpetual in its character, like the bond trustees of Jacksonville, and it is said the same "fine Italian hand" drafted both measures; the members of the commission do not have to be confirmed by the Senate; the board passes on its own vouchers for expenses; it is an undemocratic as it would be possible for such a measure to be.

2. High school books are not included in this bill. Possibly, of all the books in use in the State, one-third are high school books. If there is to be any reduction, and if the promoters of uniformity are sincere in their efforts to serve the people, and to afford them relief, why were these not included? Is it because Ginn & Co., and a few of the smaller concerns who do not publish standard works, simply desire to "muddy the waters" and prevent fair and just legislation along these lines?

3. The existing contracts in the counties are not recognized, and there would be an abrupt change, WITH POSSIBLE SUITS FOR DAMAGES IN FORTY-FIVE COUNTIES FOR VIOLATION OF CONTRACTS. It should have in its title a clause that it is a measure in the interest of the attorneys of Florida who desire to be retained by the "SMALL" commission in the various counties of this State at a good salary for a soft snap.

4. No provision is made for the punishment of contractors who may come into the State to help elect persons to office who will do their bidding after election. There is danger of untold mischief. If it is the purpose of making a commission for all time, why not provide that they shall be elected by the people like the railroad commission? As we said above, it is like the city attorneyship of Jacksonville—the people will have no voice in its selection.

5. Under the provisions of this bill (No. 112) there is a possibility of man-

uscripts being submitted instead of the book itself as samples.

This measure is full of loop-holes, and is positively undemocratic in its provisions. It should be promptly killed.

THE STATE'S DEBT OF HONOR

The debate in the Senate on Thursday on the minority report of Senator Adams, providing for the payment of the one hundred and forty thousand dollar appropriation for pensions out of the fund arising from the hire of State convicts, was a most interesting one. After its adoption the amendment to the bill offered by Senator Gillen, that the money be at once taken instead and immediately from the general fund before paying any of the appropriations provided for at this session of the Legislature, brought on more talk along the same lines. Those voting for this last amendment were Senators Blount, Gillen, Harris, Hudson, McCreary, Ramey, Sams, Trammell and Wilson—9. The amendment was therefore lost, but its advocates improved the opportunity of debate to show they were as anxious that the pensions be paid immediately as were those that differed with them, with this difference, that they wanted the State to pay the State's debt of honor, and not the counties who would be seriously embarrassed by this unexpected depletion of their fine and forfeiture fund. They further claimed they even were anxious and were willing even in accordance with the amendment offered to go without their own pay, as it was asserted they might have to do until the pensioners were paid in full. In ending the long, and at times eloquent, debate, Senator Sams of Volusia, in his characteristic way, challenged the body to show any member who was not a true friend of the old soldier, and if such existed to there stand up and "have his picture taken." It is needless to say this challenge met with no response. Senator Sams, by the way, is an old comrade-in-arms of Alachua's able clerk of the circuit court, Hon. S. H. Wienges, and a true and tried veteran. He contended, as did his colleagues in the minority, that the pensions should be paid at once, but that the Confederate soldier fought for the State, and that the State should not shift the burden to the counties.

Herbine

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood purifier and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise. R. N. Andrews, editor and manager Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla."

The bill introduced in the Legislature by Representative Campbell of Gadsden county, to define the duties and fix the salary of State attorneys, provides, among other features, that the State attorneys shall assist the Attorney-General in the prosecution of all State cases in the Supreme Court, shall represent the State in habeas corpus cases, provides for the transfer of State attorneys from one circuit to another in cases of disqualification, etc., and fixes the salary of the State attorney at \$2,400 per annum.

Growing Aches and Pains.

Mrs. Josie Sommer, Bremond, Tex., writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c. and \$1.00. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

Senator Faulkner of Perry introduced a substitute to Senator Zim's anti-free pass bill that weighed so heavily on the measure that the whole thing was completely swamped, being indefinitely postponed. It favored punishing the giver as well as the receiver of favors.

Schools to be Estab-
Fertilizer Bill Made a Spe-
Order for Tuesday—Appropri-
tions for State Colleges.

Tallahassee, April 29.—In the Senate yesterday morning, Senator Jackson secured the adoption of a resolution to furnish that body with an itemized statement of money paid out for special counsel by the State and information regarding counsel in State employ.

Senators Adams and Davis were appointed members of joint committee to inspect Florida Coast Line Canal and Transportation Company.

New bills introduced and referred: Senator Massey—To protect fruit trees in Orange county and appointment of horticultural commission.

Senator Wilson (by request)—To permit owners of mill ponds and adjoining lands to prohibit fishing in said ponds without permission of owners or agents.

Senator Blount—To provide for the incorporation and powers of trust and security companies.

Senator Faulkner—To amend the law relative to the assessment and collection of revenue.

Senator Neel—Declaring Morrison spring and creek in Walton county navigable; also, making an appropriation for land and buildings for the State Normal School at DeFuniak Springs.

Senator Davis—For the relief of H. S. Maddox and others; also a bill creating a lien for attorneys-at-law in certain cases.

Senator Gillen—Empowering county boards of public instruction and of special school tax districts to establish kindergartens under certain conditions.

Under the consideration of bills on their second reading, Senator Blount's bill to define tenancies at will and to prescribe the mode of terminating them, was slightly amended, and ordered engrossed for its third reading.

Senator Adams offered an amendment to Senator Trammell's fertilizer bill, making the manufacturer, instead of the vendor, responsible. Senator Trammell debated against the amendment, claiming that it would cripple the object of the bill, and would protect the merchant instead of the farmer.

After some discussion the bill was made a special order for 11 o'clock Tuesday.

Committee Reports.

The committee on education reported favorably upon the Trammell bill providing for the teaching of the elementary principles of agriculture and the elements of civil government in the common schools, recommended the printing of the bill providing for county teachers' institutes, and recommended the bill providing for payment of interest on school warrants.

The committee on agriculture reported favorably upon the bill for protection of owners having stock killed or injured by another, with or without malice toward the owner, or not having a lawful fence.

The committee on engrossed bills reported back the following bills as having been properly engrossed, and these will appear on Monday's calendar among bills on third reading: Bill amending section 3, Revised Statutes; bill prohibiting shooting of pigeons, etc., for amusement or test of skill; bill prohibiting the using of checks on banks and other persons when makers have not sufficient funds to meet same; bill providing for local system for Osceola county in construction and maintenance of roads and bridges in said county; bill making more perfect record of titles to real property; bill to regulate practice of veterinary medicine and surgery.

Senate adjourned to Monday at 4 o'clock p. m.

In the House.

Tallahassee, April 29.—The following bills were introduced yesterday: Speaker Gilchrist (by request)—To confer on justice of the peace jurisdiction to try cases of forcible entry and detainer.

Mr. Stevens—To appropriate money for land and improvements at the State Normal College at DeFuniak Springs.

Mr. Kirkland—To declare Umatilla a legally incorporated town.

Mr. Rawluf Lee—To make appro-

priations for the University of Florida, Florida State College, East Florida Seminary, South Florida Military College, State Normal College at DeFuniak Springs, St. Petersburg Normal and Industrial School, and Colored Normal and Industrial School at Tallahassee, for the last half of 1905, all of 1906 and the first half of 1907, and deficiencies.

Mr. Sistrunk—To prohibit sheriffs and other officers from handcuffing together white and colored prisoners.

Mr. Wartmann—To repeal laws relating to agricultural statistics.

Mr. Persons—To provide for taxes on franchisees.

Mr. Rosborough (by request)—For relief of certain individuals.

Mr. Dyal—For relief of H. S. Maddox and others.

Mr. Johnson—To provide for reimbursements to property-owners for property stolen by State convicts.

The committee on railroads and telegraphs, through Chairman Dorman, reported the Senate's Key West railroad extension bill, recommending that the bill be passed, after striking out the fifth and sixth sections, which were deemed of a nature to impair the powers of the railroad commission. A motion to take up the bill on second reading to consider the committee amendments failed because of the objection of Mr. Blanton of Taylor. The bill took its place on the calendar.

The select order of the day was General Jewell's motion to reconsider the vote by which his bill to provide for the inspection and analysis of and to regulate the sale of commercial feeding stuffs in the State, was defeated yesterday. General Jewell spoke briefly, but very earnestly, in favor of the reconsideration of the adverse vote on his bill, and after much discussion the bill was made a general order for May 4.

Mr. Noble of Lake withdrew his motion to reconsider the vote by which the bill to prohibit the shooting of live pigeons and other fowls was defeated

yesterday. This ended the pigeon bill.

The committee on railroads and telegraphs made a supplementary report on the Key West railroad bill, stating that it was a bill of public importance, and asking that it be made a special order for May 20 at 10 a. m., which was adopted after debate, and the bill ordered printed and made special order for 11:30 Saturday.

Mr. Cobb's bill to protect fresh water fish was adopted.

Mr. Wells' bill to fix the per diem of county commissioners at \$3 was passed 32 to 9.

Mr. Sistrunk's bill authorizing and empowering the city of Ocala to make assessments upon real estate and personal property within its corporate limits, and prescribing the duties and powers of the city council in relation thereto, and providing for the enforcement of the collection of taxes, was read both the second and third times and passed 45 to 0.

Mr. Wartmann's bill authorizing the city of Ocala to combine certain offices, fix terms of officers, borrowing money, etc., was passed.

Mr. Wells' bill relative to sale of stock in bulk was made special order for next Wednesday morning.

Mr. Stephens' bill to amend the primary election law to require payment of poll taxes at least ten days before the primary elections, and to provide assistance for voters unable to prepare their ballots, was read the second time and ordered engrossed.

Mr. Wells' bill to provide a compensation (\$3 per diem) to be allowed justices of the peace and county judges when engaged in any trial before them, was amended and ordered engrossed.

A communication was read from Hon. Jefferson B. Browne, chairman of the railroad commission, giving a detailed statement of the accounts disbursed by the railroad commissioners for special counsel since the organization of the commission in 1907. The totals for legal services approximated

\$10,000. Among the counsel employed were J. M. Barra, J. Emmett Wolfe, A. N. Cockrell, J. L. Neely and B. S. Liddon.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and lagrippe. At drug stores, price 50c and \$1.00; guaranteed. Trial bottle free.

Picnic at Tusawilla.

The Ladies' Cemetery Association of Micanopy will give a basket picnic on the romantic shores of Tusawilla lake Wednesday, May 3, to which a general invitation to the public is extended.

The ladies will sell refreshments at a reasonable price, the proceeds to be used for the benefit of Micanopy cemetery.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.—D. R. A FATAL ACCIDENT.

Peculiar Manner in Which Child of G. A. C. Martin Met Death.

Information has reached this city of the sad and sudden death of the infant son of G. A. C. Martin, Trenton, which occurred Monday by a most peculiar accident.

From the meager particulars learned it was stated that the child was playing in the barnyard, when it pulled from an elevated position a box which had been used as a hen's nest. The box fell across the child, causing instant death.

The funeral was held Tuesday, the interment being in Jennings Lake cemetery.

Friends of Mr. and Mrs. Martin sympathize with them deeply in their misfortune.

Funeral of Mr. Jeffords.

The funeral of the late E. A. Jeffords, the death of whom occurred at his home in this city Tuesday, was held from Holy Trinity Episcopal Church Thursday morning at 10 o'clock, Rev. Francis H. Craigill officiating. The interment was in Evergreen cemetery.

Deceased being a Confederate Veteran, many old comrades, and several ladies representing both Chapters of the U. D. C., were present to pay their last respects to the man who had so nobly assisted and defended them in times when they needed assistance.

The relatives of the deceased were so scattered throughout the United States that it was impossible for them to meet here, hence the only relative present was W. S. Moore, St. Louis, son-in-law of deceased.

In the death of Mr. Jeffords Gainesville loses another old land-mark and valued citizen, and friends note his demise with a great deal of sorrow.

Justice Colman's Court.

The mills were set to grinding Thursday in Justice Colman's court, when Dan Johnson, colored, was arraigned upon a charge of accessory to the crime in the murder of John Fowler at Windsor on October 25, 1903. Chas. Winkles, another negro, was the principal in the crime as charged. At the last term of the circuit court an indictment was found, and Winkles is now under a bond of \$400 for his appearance at the next term of the court.

Johnson was placed under a bond of \$105 for his appearance before the fall term of the circuit court. In placing the defendant under this bond Justice Colman remarked that it was not because he might be guilty, but that he would prove an important witness in the case, and he desired to be assured of his appearance before the court as such.

W. C. T. U. CONVENTION.

Interesting Session of the State Convention in Session.

The W. C. T. U. State Convention convened in Jacksonville Tuesday afternoon, with very encouraging reports of work accomplished during the past year.

The evening session was opened by prayer by Rev. Ley. Welcome address by the president, Mrs. F. G. LeBourveau, of the Jacksonville union. Address of welcome for the pastors, Rev. Syman Hood; for school, Prof. Knibloe; for city, Dr. W. A. Hobson. With these cordial welcomes we felt quite at home.

The response for the convention was given by Mrs. Knott of Tallahassee.

The first session, Wednesday, was opened with devotional exercises, with Miss Minnie Neal, State president, in the chair. When we looked into the bright face of our president we felt sure we would have an interesting and instructive convention. She performed the duties of her office in a very systematic and business-like manner.

The report of the executive committee was given and a number of papers were read showing the intelligence and thought of our women, which encouraged us to go on in this labor of love for the uplifting of mankind and the advancement of Christ's kingdom.

At the afternoon session, after the devotional exercises, the business of the convention was taken up. Several instructive papers were read on the education of the children in school and out.

Marriage at Campville.

There was a wedding at Campville Wednesday, the contracting parties being Mr. J. H. Baehlott and Miss Helen Bailey, two popular young people of that place.

Mr. Baehlott is assistant manager of the naval stores business of P. H. Baker of this city, and is well known and popular in that section. The bride is a most charming young lady, a social favorite, and has a great many friends in Campville and the surrounding country.

To the happy young couple The Sun, with other friends, extends congratulations, with the hope and belief that their journey on the matrimonial sea will be undisturbed.

Warning.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder disease. Sold by J. W. McCollum & Co.

TENT MEETING CLOSED.

Seventh Day Adventists Quit the City After Three Weeks' Services.

After three weeks' services in the big tent at the corner of South University and East Union streets, the Seventh Day Adventists have closed.

The meetings were conducted by Elder L. H. Crisler and son, Elder LeRoy T. Crisler Elder and Mrs. W. L. Killen and others of the Seventh Day Adventist faith, and while they were never well attended, the little band of Adventists here were faithful to their belief, and never missed a service when it was possible to attend. All the ministers are good speakers, and delivered some very able sermons upon the Bible, as they saw it, and the interpretation of the Word of God.

Elder Crisler and son and Elder and Mrs. Killen expect to go to Asheville, N. C., where they will conduct a series of meetings.

CAMP'S MILL BURNED.

One of the Finest and Most Modern Saw Mills in State Consumed.

A telegram to The Times-Union from White Springs, under date of April 27, bears the following information:

"Fire here totally destroyed the immense saw mills, dry kilns and veneering plant of R. J. and B. F. Camp, also the commissary, two million feet of lumber and several houses. The aggregate loss is estimated at \$250,000. This was one of the most complete milling and veneering plants in the State and its destruction throws a large number of men and boys out of employment."

Messrs. R. J. and B. F. Camp are well known in this section, and have the sympathy of their friends in this tremendous loss.

It is understood that the plant was insured for \$150,000, and that the mill will be immediately rebuilt.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." SERIOUS ACCIDENT TO COLORED MAN

Will Sanford, Colored Brakeman, Run Over by Train.

LOST AN EAR AND HEEL

Left Arm so Badly Mangled That Amputation Will be Necessary—Negro Was Working Between Cars, When He Stumbled and Fell.

Will Sanford, a colored brakeman in the employ of the Atlantic Coast Line, was the victim of an accident at Rochelle at an early hour Saturday morning which will result in the loss of an arm, an ear and a heel, to say nothing of a mangled form which will cause him a great deal of pain for the next few weeks.

Sanford was employed on trains 208 and 209, a through freight service between Palatka and Croom. In endeavoring to uncouple some air locks while the train was moving slowly he stumbled and fell between the cars. His left ear and left heel was torn off, his left arm badly mangled and the toes of the right foot mashed. It is a miracle that the victim emerged alive.

Sanford was brought to this city, where attention was rendered by the company surgeon, Dr. N. D. Phillips, and was sent on the noon train to the hospital at Weycross, Dr. Phillips accompanying the patient as far as High Springs.

While Dr. Phillips did not amputate the arm, it is so badly crushed and otherwise mangled that the physician feels confident amputation will be necessary.

THE NEWS FROM ALACHUA.

Death of a Little Girl—New Drug Store—Close of Alachua School.

Alachua, April 29.—One of the saddest deaths that has occurred in our town for some time was that of little Mildred Dorsey, the adopted daughter of Mr. and Mrs. B. W. Cato. She had been sick only a few days, and on Thursday afternoon she was stricken with paralysis and died Friday morning at 8:30 o'clock. Mildred was one of the brightest and sweetest children in town and had a host of friends. That unlucky number 13 plays a part in her death, as thirteen months ago today her mother and sister died. Mr. and Mrs. Cato have the heartfelt sympathy of the people of our town. I. S. Futch is confined to his bed with typhoid fever.

Mrs. R. A. Turner and children have returned from an extended visit to South Florida.

S. C. Dell, the new postmaster, assumed the duties of postmaster on April 20th, and has moved the office to the store of Dell, Jordan & Co. It is his intention to give the public as good service as it is possible for him to give. Miss Daisy Dell is assistant and Pat Hubbard clerk.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

An Omission.

In mentioning the eighty-sixth anniversary of the Odd Fellows by Center Lodge No. 11, which occurred Friday evening, The Sun unintentionally omitted the names of Marcus Endel, Geo. M. Lynch and Past Grand Master B. L. Baldwin, all of whom delivered appropriate and impressive addresses upon this occasion. The affair was one of the most enjoyable and interesting ever held by Center Lodge, and the large crowd present will long remember the occasion.
